SOME SAMPLE PRODUCTS

Quality Control

Our Quality Controllers visit the factory regularly to make sure we meet our buyers' requirements. Our quality control personnel are stationed at all manufacturing sites to ensure that all Production will meet to buyer's requirements. We always want to deliver satisfaction to our customers; we monitor the order from the sourcing of raw materials and accessories to production and up to the final shipment of goods. We also monitor and report the status of the order to the buyer with systematic follow-up at every. **Packing:** Only approved goods are packed, and the buyer is assured of getting quality merchandise. Care is also taken to see whether all the packing instructions of the buyer are respected. **Shipment & Cargo Handling:** All shipping documents are reviewed and verified as per the buyer's instructions. All Cargo is handled by a reputable forwarder to obtain correct information regarding ETD and ETA of vessels, because time delivery is as important for us as it is to the buyer.

Social & Environmental Compliance

Implement Group social and environmental compliance programs. Responsible for the ongoing development and coordination of a comprehensive social compliance program

- Monitor program adherence according to the company's code of conduct and local regulatory requirements
- Communicate with the Government, non-governmental organisations, and other external parties
- Develop training programs for internal staff and external vendors with the goal of promoting a healthy compliance culture across the company's complete supply chain
- Conducting factory compliance audits, investigation of work incidents and providing innovative recommendations for sustainable solutions.

Planning and Quality Assurance:

Supply Chain: Production and Quality Assurance

- Responsible for order confirmation to final inspection of product, ensuring production plans are achieved
- Deviations to be highlighted to the Business Units accordingly
- Creating product files that allow QC to conduct final inspections at the supplier
- To schedule the QC to visit factories to conduct the final inspection before the agreed CSD
- Conducting in-house lab tests and colour control for all orders
- Weekly regional production status recap and monitoring
- Conduct factory assessments based on the minimum Requirements for the supplier. Agree with the action plans for improvement.
- Implement the company's quality standards and define AQL inspection methods.
- Final AQL inspection orders will be determined based on the military standard AQL.

Planning, Production:

Supply Chain: Planning

- Reserve capacities with suppliers based on forecasts from the Business Units in collaboration with the merchandising team
- Monitor capacity utilization to ensure no overloading at any supplier
- Purchase order placement—CSD (confirmed shipment date) are line with agreed dates
- Negotiate any deviations to optimum delivery
- Hand over all confirmed orders to the Production Manager for delivery follow-up.

Logistics and Shipments:

Logistics and Shipments:

Supply Chain: Logistics and Shipments

- To ensure Business Units are fully aware of the status of their orders as follows:
 - Early shipment, On time shipment, Late shipment
 - Out of tolerance + or – Quantity
 - Mode of shipment—sea or Air
 - Receive any changes to confirmed orders, implement them with the supplier, and provide feedback to the business units accordingly.
- Receive, check and dispatch on a timely basis all shipment documents from the Suppliers.
- Working with freight forwarders to ensure logistics are without problems.

SAMPLE SECTION

At UBNS.A well-organized garment sample section is essential for developing accurate samples, reducing lead time, and achieving buyer approval. Below is a practical sample section plan suitable for a woven/denim garment factory.

Sample Development Flow

Buyer Tech Pack → Merchandising → Pattern Making → Marker → Fabric & Trims Issue → Cutting → Sewing → Washing (if required) → Finishing → Quality Inspection → Buyer Approval → Bulk Production
